Hello. I am

Khushi Jaiswal
Software Developer

I am a passionate third-year B.Tech. student in Information Technology with a strong foundation in problem-solving and programming. I have comprehensive knowledge of C, C++, and Java, and am proficient in web development using the MEAN and MERN stacks, as well as DBMS. I have a keen interest in AI tools and excel in writing prompts. Additionally, I am skilled in Photoshop, Canva, and WordPress, with substantial experience in content writing. I excel in front-end development with strong knowledge of JavaScript and its frameworks. My enthusiasm for learning drives me to tackle complex challenges and deliver innovative solutions.

My Skills

PROGRAMMING SKILLS	C\C++, Java, Python, JavaScript, DSA, DBMS, R
OPERATING SYSTEMS	Windows, Linux
SOFTWARE SKILLS	Visual Studio Code, IntelliJ IDEA, Android Studio, Ubuntu, Adobe Photoshop, Bootstrap, NetBeans IDE, Microsoft Tools, Postman
WEB DEVELOPMENT	MongoDB, MySQL, Express, Node.JS, React.JS, HTML, CSS, JavaScript, Bootstrap, Postman, WordPress
OTHER SKILLS	Content Writing, AI Prompts, Canva

My Projects

Android Application of To-Do List

Designed a to-do list android application using Android Studio IDE which provides edition, checking out and deletion of tasks on a list and arranging tasks in a priority order.

Calculator

Designed a fully functional calculator performing addition, subtraction, multiplication and division with an interactive appearance using HTML, CSS and JavaScript.

Library Management System

Designed a website for book maintenance in the database of a library. Used HTML, CSS and JavaScript to make it interactive and user friendly. Also contains a clock time according to GMT.

Pick N Drop

A detailed analysis was done on data flow and passing of controls among the various features of a ride hailing software. Also, new features for better performance were contemplated.

Database Management System

Worked with SQL tables to fetch useful information by passing queries. Performed various operations on the data and maintained and manipulated the data.

Frontend Projects

Designed a resume webpage and a landing page for a bookstore and gym using HTML and CSS. Made them precise and informative with details to the division of various sections.
